Brian,

Here's those two reports you wanted.

Eugene Bromley  
NPDES Permits Section (WTR-2-3)

**Subject:** Request for Tetra Tech 2006 report

Greetings, Mr. Smith. I am trying to locate a report prepared by Tetra Tech Inc. back in 2006, submitted to EPA Region 9 during its review/revision to the general NPDES permit for offshore oil and gas operations, southern California (CAG280000). The technical report dealt with alternatives to the offshore discharge of drilling muds and cuttings, and possibly produced water.

The report appears to occur under several names, or variants:

- Tetra Tech, Inc. 2006. Discharge Alternatives Feasibility Study. A report to the Western States Petroleum Association. December 2006.
- DCOR, LLC. 2006. Discharge Alternatives Study, Submitted to EPA Region 9, December 15, 2006.

- Western States Petroleum Association. 2006. Final Report, Discharge Alternatives Feasibility Study, Submitted to EPA Region 9, December 21, 2006.

If possible, I would appreciate receipt of the report(s).

In advance, I appreciate your attention to this request.

Regards,

Brian Balcom
